I am deeply passionate about the art of seamlessly blending form and function. With a relentless drive for continuous learning and staying up-to-date, I am motivated to push the boundaries of my creativity, technical skills, and research methods to create meaningful experiences that benefit both users and businesses.

Experience

- **Israeli Navy | intelligence researcher**

August 2019- April 2022

- **Hydrographic office management**

April 2020- April 2022

- In pursuit of the office's goals, I successfully led a team, fostering a positive and productive ambiance while ensuring optimal time management.
- Coordinated and collaborated closely with high-ranking personnel in order to assist and support other units.

- **Navy intelligence researcher on duty**

December 2019- April 2020

- To meet goals and deadlines effectively, I collaborated closely with a team, leveraging collective expertise and fostering a cooperative work environment.
- To deliver impactful solutions, I seamlessly integrated computer software within the hydrographic space through extensive research.

- **Navy intelligence researcher Course - honor candidate**

August 2019- December 2019

- Mastering the practical skills of the research world propelled me to achieve the Certificate of Excellence in the Navy intelligence researchers course.
